PROFESSIONAL SUMMARY

Computer Science student specializing in AI-driven software development, with hands-on experience designing and deploying real-world applications using Java, SQL, and modern web technologies. Skilled at translating complex problems into scalable, efficient solutions, with a strong foundation in clean coding practices, system design, and collaborative teamwork. Adaptable and detail-oriented, with a genuine passion for exploring emerging technologies and continuously expanding technical expertise. Eager to begin my career by contributing to real-world projects that create meaningful, lasting impact.

TECHNICAL SKILLS

- Programming Languages: Java, Python, SQL
- Core Java: Object-Oriented Programming (OOP), Collections Framework, Exception Handling, File Handling
- Data Structures & Algorithms: Arrays, Strings, Linked Lists, Stacks, Queues, Trees, Sorting, Searching
- Web Technologies: HTML5, CSS3, JavaScript, React.js
- Database: MySQL
- Version Control: Git, GitHub
- Developer Tools: IntelliJ IDEA, Visual Studio Code

EDUCATION

Bachelor of Technology – Computer Science and Business Systems

Panimalar Engineering College Chennai, Tamil Nadu

2023 - 2027

CGPA: 8.1 Higher

Secondary Education (HSC)

Adhiyaman Matriculation Higher Secondary School

2022 - 2023

Dharmapuri, Tamil Nadu

Percentage: 95%

PROJECTS

FAKE NEWS DETECTOR — AI-POWERED VERIFICATION TOOL

2024 - 2025

Built an AI-based fake news detection system using Natural Language Processing (NLP) to classify news content as real or fake. Designed and deployed a web-based platform allowing users to upload or paste articles for instant, automated verification.

AI-POWERED EDTECH PLATFORM FOR SKILL DEVELOPMENT

2025 - 2026

Engineered an AI-driven EdTech platform to bridge the gap between academic learning and industry skill requirements through personalized learning pathways. Integrated an LLM-powered doubt resolution system, enabling instant, context-aware responses to academic and technical queries.

INTERNSHIP

Artificial Intelligence Trainee - Acmegrade

JUN 2025 - JUL 2025

Completed a one-month training program in Artificial Intelligence, gaining hands-on exposure to core concepts, methodologies, and real-world applications of AI. Built a strong foundation in AI-driven problem-solving through structured learning and practical exercises, while strengthening analytical and technical skills. Demonstrated consistent dedication, adaptability, and competency throughout the program.

CERTIFICATES

Oracle Cloud Infrastructure — Oracle

Acquiring Data in Fundamentals of AI — Nasscom

Software Engineering — JP Morgan Chase & Co

Data Analysis — Deloitte

ACHIEVEMENTS

Hackathon

- Ranked in the Top 6 at the "ORIGIN 24-Hour Hackathon," organized by the SIMATS Hackathon Club, collaborating with a cross-functional team to design and deliver a working solution under a 24-hour deadline sharpening leadership, teamwork, and communication skills through rapid, high-pressure decision-making.

Paper Presentation

- Presented a research paper at an international conference (ICONIC Toolkit), strengthening research, technical writing, and public speaking skills through direct engagement with an academic audience.
